Mira Road(Thane)-India

Age: 45Yrs

Short Brief about my KRA

I have equal expertise in both QS & Planning. I have worked as Sr. Manager Quantity Surveyor and Planning Engineer in Gulf as well in India. My Role as Sr Quantity Surveyor comprises pre as well post contracts. Tendering (complete process) in pre contracts and in post contracts my roles is to mainly support the Project Manager and Project Team with information and deliverables on procurement, variation, invoicing, letter drafting.

As a planning & scheduling engineer, my role involves project planning, scheduling (primavera baseline) project monitoring & controlling, guiding and updating the project team on procurements, delays and recoveries strategies, project financial status such as cash flow-S-curve & CTC, look ahead program as per primavera as well as per site conditions, regular meetings with project stake holders to ensure timely closures for all project phases such as engineering, procurement and execution. Preparation and submission of time and cost claims on the basis of various correspondences on delay events recorded and communicated to the Client/Engineer.
