## ABOUT ME

I'm a UI/UX Designer & Front-End Developer with a passion for solving problems and making useful things for real people. Currently, I'm looking for an enthusiastic team of like-minded people to build awesome things with. I've worked as UI/UX and Web Designer for last 5 years, but decided to change gears when I noticed there was something missing. I've always put users at the forefront by being the one on the team to ask: "what would they want, and why?" Due to this, transitioning into the world of UI design seemed like a natural fit and now I get to create beautiful things that solved an actual problem.
