

Dear Sir, Assalam o Elekum

Please allow me to provide a brief introduction.

With an experience spanning more than 30 years, in the varied fields of business management, I have todate excelled in sourcing/international procurement as well as local sourcing of products, customers, and producers.

My last position as Commercial Diirector is evidence of my accomplishments at a Bahraini trading company, which was an unknown entity when I first joined on 1st January, 2016. and after a stint of 5 years, the same company is not only known across the globe, I have single handedly introduced this company in more than 50 countries of the world by bringing in both customers and producers of different products, in particular chemicals.

Hence, this humble application.
