

Murad Afzal Mohammad Afzal Naseem Jawhari

ABOUT

Murad is a civil engineer and has a more than **15** years' experience, out of which, four years were spent in the design office working on multiple projects as assistant project manager, task manager, stake holder manager and design engineer. Also, Murad has good experience in preparation of Tender Documents and has been a member of Tender Evaluation Team.

Murad has about 10 years work experience on site as a supervising consultant as Engineer and Inspector. Out of which, five years were spent working on 3 major renowned projects. Key to his role is storm water drainage design and supervision, supervising contractors for laying other wet and dry utilities, supervision of road works and bridges. Murad also has a good knowledge and experience in Pipe lines and underground valve chambers and pumping stations and worked on pipe line projects for almost 5 years of his career.
