Profile

Results-oriented iOS developer with more than 6 year's experience writing highly readable, clean, maintainable source code.I make it my goal to create software with the user in mind, creating applications with a usable and intuitive user interface experience. I also understand the importance of creating highly readable and easily maintainable source code. I am constantly striving to learn new technologies and look to ways to better myself in this rapidly changing industry. Developed more than 15 applications for iPhone and iPad that offer users an intuitive, friendly interface, and successfully executed more than 30 updates to existing applications for a variety of small to mid-size companies.
