

Subject: Expression of Interest for the suitable Project Management position in the Bahrain.

Hi Talent Acquisition Team.

I am delighted to express my interest for a suitable "Senior Project Manager/Project Manager/Project Director" with your organisation in the Bahrain.

I am an Australian Citizen, holding Master of Engineering Management, Asset Management, Project Management Professional (PMP) certification with Civil Engineering background. I possess more than 14 years of business development and complex infrastructure (commercial, Residential, Industrial, Environmental) delivery experience with the ability to oversee the whole of the project life cycle from scope definition, concept to schematic design planning, procurement, project delivery and handover to client. I have efficiently delivered the infrastructure projects including roads, buildings, fire services, carparks & reserves, open spaces, HDPE water mains, water storage ML tanks, fire hydrants, VSD pumping systems, drainage & sewer system, wastewater treatment plant, PFAS remediation and other civil/water infrastructure projects.

In my current role with Cardno Stantec as Senior Project Manager, I am responsible for supervising and leading a cross portfolio teams of water management, flooding, hydraulics, wastewater treatment, civil, fire services, structural, geotechnical, traffic & transport, environmental, electrical, HAVC, sustainability, architects, and Acoustics for the design and development of a Defence Industrial Complex in Melbourne as per current Australian Standards. I have been responsible for dealing with internal and external stakeholders by providing project management, financial, reporting, quality assurance, contract management and procurement expertise leading to the successful delivery of the projects and successful business delivery.

I have expertise in managing the complete procurement process as per FIDIC, DBOM, D&B AS4000 and AS2124 contracts, the tender process for design and delivery of the capital project (RFT/RFQ), tender evaluation, tender briefing and awards and contract management for all capital projects.

I have completed my "Master of Engineering Management" from Southern Cross University Australia, PMP Certificate from Project Management Institute and had completed "Bachelor of Civil Engineering" already in 2008.

I have attached my resume below to provide more information about my background and appreciate the opportunity to discuss how may I contribute to your organisation. Please do not hesitate to contact me for any further query.

Kind Regards.

Professional Summary:

A dedicated and responsible team leader with combined experience in business management & control, Projects and Asset Management, Construction Management, Contract Management and Administration.
