Subject: Application for the post of Chemical and Process Engineer

Respected Sir/Madam,

I am writing to explore the possible opportunity of employment in your organization as a Chemical and Process Engineer. I have keen interest in chemical and process industry and want to be a part of your organization.

As Beginner Chemical Engineer I want to build my career in Manufacturing and Production sector with interest in Sample Testing Laboratories with specialization in Water Analysis and Green Technology.

I have completed Projects in Installation and commissioning of 5 NACSA (National Centre for Sustainable Aquaculture) Sample Testing Labs and BWSSB (Bangalore Water Supply and Sewerage Board) WTP Sample Testing Lab with my Technical Team for Savant Instruments Pvt Ltd as a Jr. Service Engineer, which gave me good industrial experience.

I have profound knowledge of Lab Instruments such as Spectrophotometers, Colorimeters and SWAS (Steam and water analysis system) etc. for water analysis and Coal Analysis with TGA Analysers and Calorimeters. Installation and Commissioning.

Moreover I possess excellent communication, leadership and problem solving for a greater presentation of career contribution and achievements.

Please see my enclosed Resume for your kind perusal. Thank you for your time and consideration and I look forward to hearing from you soon.

Sincerely,
Fawaz Shareef
Bachelor in Chemical Engineering
