---

Dear Sir,

I have enclosed my resume to provide you with an overview of my work experience. I have more than 10+ years of experience working in reputed Organizations & presently working as Planning Engineer with ADPi (Airport the De Paris Ingenierie) On Airport Modernization Program for Bahrain International Airport and holding CRPEP Category B License, Bahrain.

I wish to build on my achievements and take on a management position in this area. To assist me in this goal I have worked with Contracting / PMC / Engineering services Company, having work experience with International Airports, Airbase, hospital construction for Industrial, Commercial & Residential buildings, Infrastructure & utility works comprises Sewage Network, Sewage station, Chilled water network includes Chiller plant, MV & LV cables includes substations, Portable water & tanks, Fuel Farm, Fuel tanks & Piping etc.

These are the current role and responsibilities include but, not limited to, on the present project Bahrain International Airport – Airport Modernization Program.

- Close coordination with PMC and the Client.
- Close coordination with Main Contractor, Novated & Sub-Contractor's.
- Assisting Senior Planning Engineer & Project Director.
- Scheduling various project meetings.
- Coordination with Internal departments & discipline Engineers & Inspectors for progress monitoring.
- Being part of Operation Readiness and Airport Transfer (ORAT) team, coordinating all issues and requirements with Main contractor as well as Novated packages.
- Coordination with the Contracts & Cost Departments
- Ensuring the Construction Schedule is in compliance with the overall project schedule.
- Review of Contractor's Monthly & Weekly reports, Contractor's Procurement schedule.
- Review & evaluation of Contractor's site progress and identifying delays.
- Identifying critical activities and continuous follow up with Contractor to avoid slippages.
- Identifying Delays and Issuing of Delay notices.
