

I am excited to apply for the position of Biomedical Engineer at your prestigious organization. With 8 years of experience in the healthcare industry, i have a strong background in medical device purchase, operation, maintenance, and quality control management.

In my role at IQRAA International Hospital, I have been responsible for managing and maintaining all medical equipment inventory, ensuring that it is up to date and calibrated according to industry standards. This involves coordinating with vendors and repair personal, performing troubleshooting steps and repairs, and overseeing the installation and testing of new equipment.

During my tenure, I have also initiated several process improvements, such as developing a preventive maintenance schedule for all medical equipment, carrying out more efficient inventory tracking, and establishing a safety program to minimize equipment - related incidents.

As a Biomedical Engineer, I will bring my technical knowledge and experience to deliver optimal results in the organization. I am excited at the opportunity to join your team and make a meaningful contribution to your organization.

Thanks & regards

Shonima TP
