Dear Sir

I am writing to apply for the position of Project Engineering/ Project Management. My 9 years of experience includes responsibilities like Project Management, Site management & Co-ordination, Client Relationship Management, Design & Detailed Engineering, planning, Project Execution, Team management & leadership, Quality Management, Estimation & Procurement and in areas like EPC and Contracting, Structural Installation/Erection & revamping ( **off shore & On shore** ), MEP(pumping stations) & Piping .

I am currently working as **Structural specialist (PMC) at Bahrain Petroleum Company, Kingdom of Bahrain.**

This role requires me to facilitate development of project schedules, resource schedules, execution methodologies, milestones; conducting cost benefit analysis of the projects and controlling the project with respect to cost, resource deployment, time over-runs and quality compliance; manage the entire product development including requirement analysis, finalize specifications, spearhead entire operations such as quality analysis and management, Site management .

My ability to coordinate the entire development activities including requirement analysis, planning, finalizing specifications and prototype development will be of interest to you. I have a proactive management style with highly developed analytical and problem-solving skills.

I bring to your company my years of relevant experience and my drive for results and positive outcomes. I am prepared for the next challenge in my career and look forward to hearing from you.

Thank you for your time and consideration.

Best Regards,

**SANTO ACHANKUNJU**
