Bachelor of Engineering in Computer science And Engineering, Anna University, Coimbatore

★ Projects

OUR EVENTS- EVENT MANAGEMENT WEBSITE

Build on React.js, Node.js, and MongoDB Developed a fully functional web app with a chat section using the MERN stack and Socket.IO. Implemented features such as user authentication with JWT, image uploading, payment using Stripe, searching, email verification, and an event manager management chat feature for users to communicate with event managers.

E SHOPPER-E COMMERCE WEBSITE

Built a fully functional e-commerce platform using Node.js, Express, MongoDB, Ejs, CSS, and Bootstrap with MVC architecture. On the client side, we implemented features such as user authentication, product listing, wish list, and shopping cart. OTP verification, profile management, order tracking and cancellation, and Razorpay payment integration. On the admin side, we implemented user management, product management, coupon management, category management, banner management, sales reports, and graphs.
