I am writing to apply for the Full Stack .NET Developer position at First Screen. With my 8 years of experience in software engineering and development. I am confident I am the perfect candidate for this position.

In my current role at Advanced Business & Healthcare Solutions India Pvt. Ltd., I have successfully led the migration of the Carpe-Diem application to the Azure cloud environment, updated legacy codebases, and implemented Test Driven Development (TDD) practices to amplify team efficiency. My expertise in technologies such as C#, Microsoft .NET, Angular, SQL, and Azure cloud services has enabled me to develop and optimize the application, significantly enhancing API functionality and performance.

I am particularly proud of my ability to identify areas for improvement and optimize code, resulting in an 8% increase in overall efficiency. My leadership in migrating Angular and .NET Framework projects, as well as integrating Open API (Swagger) to uphold REST principles, demonstrates my commitment to delivering high-quality solutions.

Furthermore, I have ensured code quality and security using SonarQube and FOSSA, automated build and deployment processes with GitHub Actions and Azure DevOps and participated in cross-team feature development. My experience in mentoring interns and contributing to the design and architecture of new features aligns with your company's values of innovation and collaboration.

I am eager to bring my technical skills, problem-solving abilities, and passion for continuous improvement to First Screen. I am confident that my background and expertise make me a strong candidate for the Full Stack .NET Developer position.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the goals of First Screen. Please feel free to contact me at +91 7397451702 or danish.8321@gmail.com to schedule an interview.

Best Regards,
Danish Ahmad
