

DAGMAY SOLOMON

ELECTRICIAN

Profile

Motivated and skilled Electrician with over 3 years of hands-on experience in building electrical systems and installations. Strong technical background in automotive engineering, with an understanding of electrical systems, wiring, and troubleshooting. Adept at interpreting blueprints, schematics, and building codes, while ensuring all electrical work meets safety and quality standards. Known for a high level of attention to detail, reliability, and commitment to completing projects on time.

EXPERIENCE

AMEN ELECTRICAL INSTALLATION

ELECTRICIAN 2021 - 2023

- Install, maintain, and repair electrical systems in commercial and residential buildings, including lighting, power outlets, and HVAC systems.
- Collaborate with construction teams to ensure proper integration of electrical systems during building construction or renovation projects.
- Perform routine inspections of electrical systems to ensure compliance with building codes and safety regulations.
- Install and configure electrical components for new construction projects, ensuring correct installation of wiring, lighting fixtures, and control systems.
- Work with clients to understand their electrical needs and provide cost-effective solutions for energy efficiency.
- Assisted in the installation, testing, and maintenance of electrical systems for residential and small commercial properties.
