## Mobile Application Developer

Phone: +97336745130

Email: mubashir.zaheer2000@gmail.com

Nationality: Pakistani

LinkedIn: [www.linkedin.com/in/mubashir-zaheer-659833244](https://www.linkedin.com/in/mubashir-zaheer-659833244)

## PROFILE SUMMARY

Dynamic and results-oriented Mobile Application Developer with over **3 years** of industrial experience specializing in **Flutter** and **React Native**. Adept at designing, developing, and deploying high-performance hybrid mobile applications, integrating blockchain technologies, and ensuring seamless user experiences.

Skilled in end-to-end app development, API optimization, and advanced state management (Provider, GetX). Currently based in **Manama, Bahrain**, and open to relocation on short notice.

## WORK EXPERIENCE

### Kryptomind LLC | Lahore, Pakistan

Mobile Application Developer

Jan 2023 – Nov 2024

Kryptomind LLC, a leading Blockchain Software Development, provides solutions for blockchain apps and e-commerce apps

- Developed multiple hybrid apps using Flutter, integrating REST APIs, Firebase, and payment gateways.
- Implemented blockchain wallet functionalities, including coin and token transactions.
- Utilized state management techniques such as Bloc, GetX, and Provider, following MVVM architecture.
- Collaborated with cross-functional teams to deliver high-quality mobile solutions on time.

### Macromodule Technologies | Lahore, Pakistan

Mobile Application Developer (Remote)

Jan 2024 – Present

Macromodule Technologies is a fast-moving software company that provides simple blockchain, NFT & AI solutions.

- Developed a blockchain wallet application supporting multi-currency transactions.
- Optimized wallet security and ensured seamless integration with decentralized networks.
- Enhanced app performance, user experience, and stability through ongoing updates and feature enhancements.

## SKILLS

### Technical Skills

- Programming Languages:** Dart (Expert), Kotlin (Intermediate), Java (Intermediate)
- Mobile Development:** Flutter (Expert), React Native (Intermediate)
- Blockchain:** Web3 (Intermediate), Cryptocurrency Wallet Development (Intermediate)
- Databases:** Firebase (Expert), MongoDB (Intermediate)

### Tools

- Version Control:** Git, GitHub, GitLab (Expert)
- API Development/Testing:** REST APIs (Expert), Postman, Swagger (Expert)
- Project Management:** Jira, ClickUp (Expert)
- Design Tools:** AutoCAD (Intermediate), Microsoft Office Suite (Expert)

### Methodologies

- State Management:** Provider (Expert), GetX (Expert), BLoC (Intermediate)
- Architectures:** MVC (Expert), MVVM (Expert)
- Development:** Practices: Agile, Code Review, Unit Testing (Intermediate)

## PROJECTS

---

### GoTo APP

Contributed to the development of the GoTo Service Portal app in the Cayman Islands, connecting vendors with residents across multiple platforms (iOS, Android, and web). Enhanced user experience for seamless service sourcing.

### Hogi Wallet

Helped develop a decentralized crypto wallet for managing Ethereum, Binance, Polygon, Tron, Solana, Arbitrum, Base, Bitcoin, and custom tokens. Features include multi-wallet management, mnemonic-based wallet creation, and asset organization for cryptocurrency enthusiasts.

### Property Asia

Contributed to the Property Asia app, a real estate platform for Dubai. Enabled users to buy, sell, and bid on properties, with an innovative bidding feature and a user-friendly interface.

### MUSH Social App (React Native)

As a key contributor to the MUSH Social app, a leading social media platform from Saudi Arabia, I optimized frontend API integration, ensuring smooth communication with the backend. I also implemented features like image filters, drawing tools, and image cropping, enhancing functionality and user engagement.

### Purepay.

Developed a decentralized crypto wallet platform with features like multi-currency storage, DEX swaps, Web3 integration, and a user dashboard. Integrated an admin panel for content and user management.

## EDUCATION

---

<b>University of South Asia   Lahore, Pakistan</b> Bachelor's in software engineering	<b>2019-2023</b>
<b>Islamia Collage Railway Road   Lahore, Pakistan</b> Intermediate in Pre-Engineering	<b>2018-2019</b>
<b>Pakistan School   Bahrain</b> Matriculation in Computer Science	<b>2016-2017</b>

## CERTIFICATES

---

- **Flutter Internship Certificate.**  
Kryptomind LLC, Johar Town, Lahore, Pakistan  
Completed a hands-on internship focusing on Flutter development for mobile applications.
- **Flutter with Dart (Android/iOS App Development)**  
PNY Institute, Model Town, Lahore, Pakistan  
Completed comprehensive training in mobile app development using Flutter and Dart.
- **AutoCAD & MS Office Certificates**  
Peak Solution College, Sadar Cantt, Lahore, Pakistan  
Acquired proficiency in AutoCAD for engineering design and Microsoft Office tools (Word, Excel, PowerPoint) for professional documentation and presentations.

## LANGUAGES

---

**Languages:** English (Proficient), Urdu (Native)
