

Dear Hiring Manager,

I am eager to transition into a software development role and would like to express my interest in opportunities that align with my skills. With a background in IT and telecommunications, I have gained valuable experience as an RF Engineer, specializing in signal testing and network optimization. However, my passion lies in software development, which led me to complete a 6-month Python Full Stack Development course covering HTML, CSS, JavaScript, Python, React.js, and Django.

My technical expertise, combined with strong analytical and problem-solving skills, allows me to adapt quickly to new challenges. I have hands-on experience building dynamic web applications and am committed to continuous learning and innovation. Additionally, I hold a transferable visa and am available for immediate relocation or remote opportunities.

I would love the chance to contribute to a forward-thinking team and discuss how my skills can benefit your company. Thank you for your time and consideration. I look forward to connecting.

**Best regards,
Mubbashir Sajjad**
