Manama, Bahrain.

Professional Summary

Results-driven Civil Engineer with over 08 years of experience in project management, architectural design, and geotechnical engineering. Proficient in leading teams, delivering innovative designs, and ensuring compliance with building codes and zoning regulations. Expertise in AutoCAD, SketchUp, and sustainable design practices, with a proven track record of completing 250+ residential, commercial, and industrial projects. Seeking to leverage technical and leadership skills to deliver high-impact infrastructure solutions.

Key Skills

- **Software Proficiency:** AutoCAD (Expert), SketchUp (Expert), Lumion 10 (Moderate), Primavera (Entry-Level), Microsoft Office (Expert)
- **Design and Planning:** 2D/3D Visualization, Sustainable Design, Architectural Drafting
- **Project Management:** Team Leadership, Resource Allocation, Budgeting, Stakeholder Collaboration
- **Geotechnical Engineering:** Soil Testing, Structural Analysis, Regulatory Compliance

Work Experience

Project Engineer

BeReh Constructions Pvt Ltd, Islamabad

April 2019 – January 2025

- Managed on-site teams of 20+ workers across 259 residential, commercial, and industrial projects, ensuring 95% on-time delivery.
- Collaborated with clients and stakeholders to develop innovative designs, achieving a 98% client satisfaction rate.
- Reduced design approval timelines by 20% by streamlining submission processes with CDA and RDA authorities.
- Reviewed and vetted architectural, structural, and working drawings, minimizing errors by 25%.
- Spearheaded sustainable design practices in 50+ projects, reducing energy consumption by 15%.

Project Manager

Kamran Consulting Engineers, Islamabad

November 2017 – April 2019

- Oversaw the coordination of project meetings, logistical planning, and file management, increasing operational efficiency by 30%.
- Assisted in drafting and approving project plans, ensuring compliance with local regulations and codes.
- Organized workshops and conferences, enhancing team collaboration and stakeholder engagement.
- Successfully managed project-related communications, reducing delays in project milestones by 20%.

Intern (Design and Documentation)

National Highway Authority, Islamabad

June 2016 – August 2016

- Contributed to the design and documentation of the LAWARI Tunnel and PROJECT DEER.
- Prepared developmental progress reports, ensuring alignment with project goals and timelines.
- Assisted in on-site inspections and ensured adherence to safety and quality standards.

Freelancer (Designer and Planner)

June 2014 – July 2018

- Designed parking areas, residential layouts, and commercial projects, meeting 100% client specifications.
- Created marketing infographics and architectural drafts, increasing client engagement by 20%.
- Planned and executed design initiatives, delivering 95% of projects within set deadlines.

Education

Bachelor's in Civil Engineering

University of Engineering and Technology (UET), Taxila, 2013 – 2017

Intermediate in Pre-Engineering

Divisional Public School and College, Sahiwal, 2011 – 2013

Certifications and Trainings

- Registered with Pakistan Engineering Council.
- Workshops: Career Building (2017), LCL Seminar (2017)
- Leadership Roles: President of Almohandis Literary Society (UET), Senior Executive Member at ICE

Achievements

- Successfully completed 250+ geotechnical and architectural projects, meeting 95% of deadlines.
- Reduced design approval times by 20% through efficient documentation and stakeholder coordination.
- Integrated sustainable practices in 50+ projects, achieving a 15% reduction in energy consumption.
- Enhanced design visualization processes, decreasing project iteration timelines by 25%.
- Spearheaded the implementation of advanced geotechnical testing techniques, improving soil analysis accuracy by 30%.
