

MUHAMMAD UMAR

muhammad.umar.mepco@gmail.com | +973 35389428

I hold a computer Engineering degree majors in networking and have 10 years of hands-on experience working with a variety of networking technologies, including technologies, e.g., Cisco, Juniper, and specific protocols such as TCP/IP, BGP, OSPF. In my current role at MEPCO, I was responsible for designing, implementing, and maintaining network infrastructures for a diverse client base. This includes setting up secure VPNs, performing routine network assessments, and addressing issues such as connectivity failures, security breaches, and performance bottlenecks.

Some of the key skills I bring to this position include:

- Proficient in configuring and maintaining routers, switches, firewalls, and wireless networks.
- Experience with network monitoring tools and protocols such as SNMP, NetFlow, and Wireshark.
- Strong understanding of network security, including firewalls, VPNs, IDS/IPS, and vulnerability assessments.
- Excellent problem-solving skills with a keen ability to analyze and resolve complex network issues quickly.
- Familiarity with cloud technologies and hybrid cloud environments (AWS, Azure, etc.).

I am excited about the opportunity to contribute to your team at your company, and I am eager to further discuss how my skills and experiences align with your network engineering needs. Thank you for considering my application. I look forward to the possibility of speaking with you in more detail.

Sincerely,

Muhammad Umar
