

Dear Hiring Manager,

I am writing to express my interest in the position of **Biomedical Equipment Technician / Biomedical Engineer** at your esteemed organization. With over three years of hands-on experience in the repair, maintenance, calibration, and troubleshooting of biomedical equipment—particularly ICU, dialysis, and laboratory devices—I bring strong technical expertise and a commitment to supporting high-quality healthcare services.

In my previous role at **Shifa International Hospital**, I independently performed first-line repairs, preventive maintenance, and equipment calibration while ensuring compliance with ISO and JCI standards. Additionally, I conducted training sessions for nursing staff on safe handling and usage of medical devices, improving both patient safety and equipment life span. I am skilled in using Test, Measuring, and Diagnostic Equipment (TMDEs), and have completed multiple technical certifications on advanced biomedical systems.

I am highly motivated, detail-oriented, and immediately available to join your team. I am confident that my technical background, problem-solving skills, and dedication to patient-centered care would make me a valuable asset to your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience align with your requirements.

Sincerely,

Muhammad Haseeb
