Hiring Manager

Dear Hiring Manager,

I am writing to express my keen interest in the Chemistry and Biology Teacher position at your school in Bahrain. With over 15 years of experience teaching international curricula, including IGCSE and A-Level, I bring a proven record of delivering engaging, inquiry-based lessons that foster critical thinking, problem-solving, and a genuine passion for science among students.

I hold a Bachelor of Education in Chemistry and Biology and am currently pursuing a Master of Science in Chemistry at Kenyatta University. My students consistently achieve strong results, with more than 90% attaining top grades of C and above in Cambridge IGCSE and A-Level examinations. Beyond academic success, I actively mentor learners through science clubs and extra-curricular programs, nurturing curiosity, leadership, and teamwork.

In addition to classroom teaching, I have served as a Homeroom Teacher and Head of Science, roles that strengthened my leadership, curriculum development, and pastoral care skills. I value cultural diversity, having taught students from varied backgrounds in both Kenya and Seychelles, and I am confident in my ability to adapt and contribute effectively to your school community.

I would welcome the opportunity to bring my expertise, enthusiasm, and commitment to excellence to your team and contribute to the continued success of your students.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills align with the needs of your school.

Sincerely,

Luke
