PROFESSIONAL PROFILE

MBA-qualified Construction Engineer & Project Manager with 15+ years of experience delivering major civil infrastructure and land development projects in Australia. Proven track record as Project Engineer, Construction Engineer, and Resident Engineer across roads, highways, airfields, railways, and large-scale land developments.

Strong leader in stakeholder engagement, contract administration (AS2124 / GC21 – Australian Standard contracts), and project delivery. A Malaysian citizen, Australian Permanent Resident currently seeking to working in the Middle East to contribute to major infrastructure and development projects.

Open to learning and contributing to Middle East's evolving infrastructure landscape, including new sectors and departments beyond land development — eager to apply international experience while learning local practices and standards.

KEY SKILLS

- Project & Construction Management — Full-cycle project leadership, from tender to handover.
- Stakeholder Coordination — Builds effective relationships with clients, consultants, contractors, authorities, and suppliers.
- Contract Administration — Extensive experience with AS2124 and GC21 contracts; skilled in compliance and dispute resolution.
- Technical Leadership — Provides expert advice on construction methods, technical issues, and contract compliance.
- Communication & Reporting — Strong verbal and written skills; prepares clear reports and documentation.
- Team Leadership & Mentoring — Supports and mentors team members; fosters a collaborative working environment.

DETAILED EMPLOYMENT HISTORY

Construction Manager

Beveridge Williams | Melbourne | Aug 2021 – Present

Leading land development engineering consultancy in Melbourne.

Key Responsibilities:

- Acting as Superintendent and Project Manager for land development projects.
- Administering AS2124 contracts and managing tender processes.
- Auditing water/sewer works on behalf of state Victoria water authorities.
- Conducting constructability reviews and managing tender documentation

Key Achievements:

- On-time completion and Statement of Compliance for Bella Estate Stages 1 and 2.
- Negotiated reduced construction rates for Bella Estate Stage 4.

Construction Manager

KLM Spatial | Melbourne | Oct 2020 – Jul 2021

Engineering consultancy specialising in land development.

Key Responsibilities:

- Similar responsibilities to Beveridge Williams role.

Key Achievements:

- On-time completion and Statement of Compliance for Alira Estate.

Construction Engineer

Taylor's Development Strategists | Melbourne | Sep 2018 – Apr 2020

Engineering consultancy delivering complex land development projects.

Key Responsibilities:

- Similar to previous roles, acting as Superintendent and overseeing construction delivery.

Key Achievements:

- On-time completion and Statement of Compliance for Maplewood Estate Stages 5 and 6.
- Successfully managed client's interests during high-risk gas conduit boring works.

Resident Engineer

Cardno (now Stantec) | Canberra | Jan 2017 – Aug 2018

Global engineering consultancy specialising in infrastructure.

Key Responsibilities:

- Acted as Superintendent's Representative and Resident Engineer on key infrastructure projects.
- Managed projects in line with AS2124 and Government Contract 21.
- Led project teams and business development initiatives.

Key Achievements:

- Secured follow-on work through client relationship building.
- Delivered single-select win at Mulligans Flat project.

Project Engineer

VicRoads | Melbourne | Apr 2016 – Nov 2016

State government agency responsible for Victoria's road network.

Key Responsibilities:

- Superintending and monitoring of the \$86M Calder Highway Interchange Project.
- Conducted contract administration and technical inspections.

Key Achievements:

- Ensured contractor met key contractual milestones and deadlines.

Resident Engineer – Airports

Beca | Melbourne | Jun 2012 – Dec 2015

Multinational engineering consultancy focusing on airport infrastructure.

Key Responsibilities:

- Oversaw construction and maintenance of civilian and military airfields across Australia.

- Conducted site inspections and provided technical support.
- Served as Health & Safety Representative.

Key Achievements:

- Achieved 100% training compliance for Airports team.
- Resolved technical design issues on-site, preventing project delays.
- Developed efficient quality monitoring tools for pavement materials

Site Engineer

BMD Constructions | Melbourne | Oct 2008 – May 2012

Leading civil contractor delivering major infrastructure projects.

Key Responsibilities:

- Managed and supervised a variety of infrastructure and rail projects.

Key Achievements:

- 100% safety record across all projects.
- Zero non-conformance reports during VicRoads quality inspections.
- Successfully implemented lot tracking system for concrete monitoring.

Site Engineer

Fulton Hogan | Melbourne | May 2006 – May 2008

Major civil contractor delivering large highway projects.

Key Responsibilities:

- Managed sections of the A\$153M Calder Freeway Project.

Key Achievements:

- Successfully delivered A\$1M wildlife fencing package on time and within budget.
- Developed site safety database and conducted staff training.
