

I am a Project Management professional with extensive experience in planning, execution, and delivery of engineering and construction projects. Through my career, I have successfully managed multidisciplinary teams, coordinated stakeholders, and ensured projects are completed on time, within budget, and in full compliance with quality and safety standards.

My background includes end-to-end project coordination, contract administration, site supervision, scheduling, risk management, and client communication. I have consistently contributed to improving project performance through structured planning, effective problem solving, and strong leadership. I am highly proficient in project documentation, reporting, and the use of modern project management tools and methodologies.

I bring a results-oriented mindset with the ability to manage complex technical requirements while maintaining strong collaboration between clients, consultants, contractors, and internal teams. My experience working in fast-paced environments has strengthened my ability to handle multiple priorities and deliver measurable outcomes.

I am confident that my technical expertise, organizational skills, and commitment to excellence will enable me to contribute effectively to your organization's projects and objectives. I look forward to the opportunity to apply my experience and add value as part of a dynamic project management team.

Sincerely

Engr. Rahat Ullah
