PROFILE SUMMARY

I strongly believe that design should inspire those who interact with it, it should be comfortable, compelling, and energizing, and above all else bring joy to those who experience it.

My interest in architecture and design arrives from a propensity for art and drawing which, I believe, serve as a platform of inspiration and are fundamental to research, development and the design process. I enjoy a coalescence of analog and digital mediums as it provides a fun and creative palette from which to work. I am passionate about creating design that tells a powerful story, draws relationships to natural and cultural phenomena, and contributes to the built environment in a sustainable manner.

With a love for contemporary architecture and rigorous attention to detail, I have been extensively working on projects that require precision execution. I pair an artful approach with thoughtful integration of client passions and requirements to create evocative solutions.

COVER LETTER

To whom it may concern,

Upon reviewing your firm, I felt compelled to submit my resume for your consideration. With my professional experience and education in architecture, along with my skills in interior design and project life cycle management, I am confident that I would significantly benefit your firm in this capacity.

Bagging a Gold medal from University of Engineering and Technology (UET), Lahore, and the prestigious 'Mehdi Ali Mirza Award', I bring to the table more than 10 years of background in designing and producing architectural and interior schemes built to clients' needs and requirements while overseeing junior and senior engineers. I have honed my skills in conceptual design, client consultations, detailed drawings, material specifications and project direction. Additionally, my organizational, communication, and leadership abilities position me to thrive in challenging roles.

Regards,

Zuraiz Munam
