

COVER LETTER

Dear HR,

I bring 13+ years of experience as a Sr H.S.E professional in addition to being involved in development and implementation of occupational safety standards and monitoring of various construction operations for safety at all stages. The scope of my experience includes but is not limited to: Work at height safety, Lifting operations, Safety management and incident reporting. I have the pleasure of working with Personnel of different levels from diverse cultures at various Geographical locations. This has given me the opportunity to apply team-work, Communication and Leadership skills such as brain storming, survival skills, decision making skills.

The detailed information of the projects that I have successfully accomplished under my lead supervision are as follows.

- Metro Rail & Bus Stand Projects Of BMRCL, Bangalore.
- Thermal Power Plant Project (500mw) Of NTPS, In India.
- Barwa Commercial Building and Amenities Projects Include Road Ways in Doha, Qatar.
- South East Car Park Project of Qatar Foundation, Doha, Qatar.
- Worked in College of Pharmacy Project of Qatar University, Doha, Qatar.
- Worked in Dr Reddy Labs Cto-05 Up Gradation Project as Safety Lead.
- Worked as A Safety Manager Be-Half of Hindustan Zinc Limited for Fumer Project.

The detailed information of the projects that I have successfully accomplished under my lead supervision are as follows:-
