

Sayed Ayman Ahmed Husain | IT (BIS) Graduate

Date of Birth: 08/June/1998

Nationality: Bahraini

Address: House 3140 Road 4394 Block 743, Sanad, Kingdom of Bahrain

Email: sayed.ayman.husain@gmail.com

Telephone: +973 39977010

Professional Profile

Fresh and recent IT graduate with a BSc degree in Business Information Systems from the University of Portsmouth, which gave me the chance to learn and understand a lot about Project Management, Cyber Security Management, System Management, System Analysis, and Web Development.

After taking part in two internships, the work environment allowed me to learn how to work under pressure and deliver work efficiently as I am proven in my ability to fix and update an entire website that was left without any updates for 6 months in a deadline of less than 2 weeks as the sole IT Coordinator. I enjoy working in the IT industry and the practicality it brings a lot, so my mindset will always be motivated and dedicated to improve and excel.

Core Skills

- Fluent in English & Arabic.
- Microsoft Office Tools.
- HTML & CSS
- Javascript
- Flutter (Dart)
- SQL
- Database Administration
- Cyber Security
- Disaster Recovery
- Business/System Analysis
- Project Management
- Call Handling

Career Summary

Jan 2020 - April 2020

ThinkSmart, Bahrain
IT Coordinator (Internship)

Outline

Updating and maintaining the website of the company as well as other websites made for specific courses and events.

Key Responsibilities

- Maintaining the entire ThinkSmart website design.
- Making sure all pages are accessible and working fine.

- Maintaining the courses in the website, which includes adding new courses, deleting old courses, and updating existing ones.
- Making sure every page is in sync with the website and all pages are consistent.
- Setting up meetings with the marketing team to request new content for the website.
- Setting up meetings with the project coordinators and managers to make sure their responsible pages are up to date.
- Handling other websites coordinated with the company such as a website made for sponsored courses, and a website for an eCommerce event.

Key Achievements/Projects

- Updated the main website from top to bottom which was left inconsistent and not updated for 6 months within a deadline of less than 2 weeks.
- Created and designed a website from scratch for an eCommerce event (Bahrain eCommerce Academy Conference) within 1 week deadline.

Jan 2020

**Invo Pos Technologies
Software Developer Trainee**

Outline

Creating and designing mobile applications from scratch (for both Android and iOS) using Flutter (Dart).

Key Responsibilities

- Build new mobile applications and softwares for clients (such as restaurants and cafes).
- Making sure the software works perfectly and there are no design or programming errors.
- Deliver drafts to the IT manager for approval.
- Add JSON files to the application to make sure the application can have an operating system, as well as an order system.

Education & Qualifications

- **Microsoft Azure Administrator Associate (Professional Certificate)**
ThinkSmart, Bahrain (April 2020 - Present)
- **BSc in Business Information Systems (GPA: 2.43 - Second Class Honors)**
University of Portsmouth, UK (October 2015 - July 2019)
- **High School Degree in Commercial Studies (GPA: 80.5%)**
