

Dear Recruitment Team

I would like to express my deep interest in entering a position as a **safety officer**.

I have applied for the position by sending my cv to your email. Moreover, I believe that I have the talent and commitment to get this job.

The skills that I have are:

- Good understanding of how a refinery works.
- Moderate skills in welding.
- Good level of using milling and drilling machines.
- Excellent level in using MS Office.
- English language to B2 level.
- Good knowledge of using Solidwork (CAD).
- Good communication skills in Arabic and English
- Commitment to work.
- Analytical Thinking.
- Technical skills.
- Problem-solving

Within the last month, I have received my **Nebosh IGC level-3** and by this, I have increased my knowledge of health and safety. Furthermore, I believe that I can do this job with complete talent and commitment. I have taken 3-month of training internship at BAPCO within last summer at the HSE department between the fire department and the safety department, this opportunity gave me so much experience for its short length of duration as the internship was just two months but because of my desire to gain more knowledge, I extended my internship for more two weeks.

At last, I believe that I deserve getting an interview in the coming future to prove my capabilities, skills and to show you my commitment.

Thank you so much for your time and consideration.

Sincerely,

Ali Garoof
