Dear Sir/Madam,

I am applying for the system administrator position that was recently listed through your organization's careers portal and have attached my resume for your consideration and attention.

My education includes a bachelor's degree in Electronics and Communication Engineering and a master's degree in Electrical and Computer engineering. I also have completed the certification course in Vmware DCV and am MCSE, MCSA and CCNA certified. I have over seven years of experience working in the IT industry. My professional experience includes diagnosing and addressing complex network issues, servers and maintaining the highest level of network security.

I am currently working at Hilal CTS. I am responsible for the configuration, installation, and maintenance and troubleshooting of systems and network. I possess excellent knowledge of Macintosh and Windows operating systems. I also have working experience in Exchange Server, 0365, AD, Backup and Replication Solutions and Cisco devices. I am also well versed with the latest hardware and networking systems along with a broad knowledge of system and applications compatibility. I have had the opportunity to work on SharePoint, firewalls, and other networking and security devices in my career,

Thank you for your time and consideration. I look forward to the opportunity to further discuss my qualifications in an interview setting.

Sincerely,

Litu Varghese
