I wish to express my interest to work in your Firm as an Architect. With my professional experience working in India and Bahrain, I am confident that my skills and expertise will be an asset to your firm.

In my years of experience, I have worked from concept development to the construction and finish stage of projects. I work well with teams and am efficient with tight deadlines.

At my current position in Bahrain at EMGA Architects Foreign Branch since 2015. I was given the opportunity to handle various projects that include AXA insurance Bahrain Headquarters dealing with both architecture and interior which is currently on site, Business school, a shopping mall with residential apartments, Corniche development and Promenade in Bahrain, Fitness studios, Residential complex in Cairo and competition projects. My role involved conceptualizing, Studying and developing 3D models, construction drawings, site coordination, material selection, coordination with the project manager and consultants. I am also part of the experimental team which allows me to explore designs. I love working in a dynamic environment.

In the early stage of my career i worked at CADENCE Architects Banglore India, I was given the opportunity to handle a residential building and apartment project by myself.

I am well versed with Autocad, Revit, Sketchup, photoshop and have some exposure to Rhino.

Always enthusiastic about further developing my skills to provide to the growth of the firm.

Kindly go through my Resume and Portfolio.

Thanking you
Sincerely,
