April, 2021

Respective Honor,
Director, Human Resources

I am interested as HSE Officer or Safety Officer in your Company, as advertised on company website. I am currently employed as Health & Safety Advisor at Axion Imagineering Construction Bahrain. I believe that the skills and experiences I have gained at this position make me an ideal candidate for the job of Safety and Health.

As Safety Advisor, I have developed strong writing and editing skills. For example, one of my main duty is to prepare health and safety plan for the projects, which deals with issues related to this position as Senior Member Project HSE field.

This duty requires meticulous writing and editing skills, with experience and an ability to convey complex legal ideas clearly.

I have also gained extensive experience in ship yard Marine services – fields that you state the requirements of safety issues on board. My experience in the Ship Repair Yard services has afforded me the opportunity to become familiar with the consolidated and unconsolidated laws of the Offshore duty. I am always eager to learn more about state legislation, reading up on safety topics on my own time to become more knowledgeable. I would love to bring this passion for policy and law to your company.

I am confident that my experience in Marine and construction field qualify me for consideration. I have also enclosed my resume. I look forward to meeting with you and discussing my qualifications in more detail.

Sincerely,

ADIL SAJJAD.
HSE OFFICER
