Dear Sir/Madam,

I am writing to express my interest in the Engineer Position at your Company. With a Bachelor's degree in Instrumentation and Control, and over nine years of industrial experience, I have developed a strong background in project work, maintenance, technical support, and business development.

I have expertise in analytical instrumentation, specifically working with ThermoFisher Cross Belt Analyzer Systems. My role has involved reinstallation, commissioning, calibration, maintenance, and repairs, both remotely as well as in field across the MENA region. This experience has honed my ability to deliver efficient and effective solutions in various challenging environments.

I hold certifications such as an Automation Engineer and a Radiation Safety Worker. These qualifications, combined with my hands-on experience, make me a strong and worthy candidate.

I would appreciate the opportunity to discuss my application further and explore how my skills and experiences align with the needs of your team. Thank you for considering my application. I look forward to the possibility of contributing to your company.

Warm regards,

Nabil Abdul Jaleel Shaikh
