Dear Sir

I Waleed Hasan Quraishi, a B.sc. Graduate in Mechanical Engineering, with well trained in a reputed electro mechanical companies i.e.; GET and E.K Kanoo as an apprentice with a specialization in field of Mechanical Engineering and obtained work experience as QA/QC Engineer in the manufacturing industry.

Currently looking forward for working in challenging organization as a Mechanical Engineer or a relevant position for Mechanical or QA/QC Department.

With proven capabilities in Mechanical field, service system, operation, maintenance, and QA/QC; I hope that my expertise could benefit to your concern. For this reason, I have attached my resume for your perusal.

I have been constantly engaged in maintaining the complex Mechanical works over my 5 years of study period as a subjects and my interest lies primarily in operation & preventative maintenance, My Engineering training has provided me with great insight into overhauling, repairing, modifying and troubleshooting, Installation of Mechanical devices and sub-systems. Additionally, I am comfortable in working with electric Mechanical and components and possess great knowledge of Mechanical Engineering.

Given that I have been especially trained in reading and interpreting PID, Mechanical Drawings 3D autocad model drawings and schematics, I can work on complex projects with a great focus on ensuring both predictive and preventative maintenance. I am also able to use hand and Instruments in a safe manner and can use technology to benefit my work; I have deep knowledge in the studies of industrial mechanical technologies and can work on Microsoft Project effectively.

Since I am familiar with the operations of your company, I believe that I could make a sizable contribution as a Mechanical Engineer.

Please review the enclosed resume and a letter of reference from university which will provide you with more information regarding my qualifications.

Thank you for your time and consideration.

Sincerely,

***W. Quraishi***

Waleed Hasan Quraishi
