Projects:

Leading Petrochemicals Industrial Company

Project Title: OT/IT Environments Security Audit with VAPT

My role was to demonstrate how the physical perimeter could be access and creating spoofed access cards for myself and my team to bypass physical perimeter security. I was also involved in conducting network penetration testing. The network security in place had CISCO ISE and QRadar as part of the security suite that we penetrated. The Network Access Control (NAC) that was placed on the network switches was penetrated and we've successfully pivoted to the OT environment.

Bahrain Semi-Government Infrastructure Company

Project Title: Infrastructure Review with VAPT

My role was to review internal policies and procedures and compare them against NIST, CIS Security, PCI DSS and Bahrain regulations to ensure compliance with those frameworks. Additionally, I conducted a vulnerability assessment and a penetration test on the network covering unknown host discovery and network zoning checks.

Multiple Insurance Companies (CBB Volume 3 Licensees in Bahrain)

Project Title: Compliance VAPT

As part of the Central Bank of Bahrain requirements for volume 3 licensees to perform VAPT by an independent consultant, I was assigned to multiple companies to conduct this compliance requirement and submit a report to the CBB in accordance with the requirements.

Insurance Companies Merger

Project Title: System Selection Business Case

Two companies wanted to assess whether either of the core systems are usable as a single solution for both companies as well as assess the current state and discover the options that are available in the market that suit their future vision that was used as guard rails when qualifying vendors from every step.

Leading Real Estate Investment Company

Project Title: VAPT Audit

As part of the audit committee requirements, internal and external VAPT was conducted. Findings were communicated with IT and partially remediated and agreed on before the final report has been submitted to the audit committee to ensure mutual agreement and understanding.

Multiple retail and wholesale banks (CBB Volume 1 and 2 Licensees in Bahrain)**Project Title: Compliance Project**

As part of the Central Bank of Bahrain requirements for volume 1 and 2 licensees in Bahrain. We conducted stakeholder meetings and review of internal documents to create a cyber security framework that is customized to each client.

Companies with Turn Over Exceeding BHD 5 Million**Project Title: Indirect Tax ERP Consultation**

Assigned as a consultant to assist numerous companies comply with the Central Bank of Bahrain Regulations.
