

17/08/2020

Dear Sir,

I am a Self-motivated Civil Engineer with **17** years of experience in design estimation and execution teams on a range of projects. I am seeking to develop my skills in my next challenge and I am very interested in joining your engineering team

Working as an Engineer at A Karim Al jahromi Cont co, I have worked on many projects . Including Sewer Term contract, Sewer and drainage projects, Roads Term contract, Roads projects, Water distribution projects, WDD maintenance works, etc. My skills in Estimation and BOQ preparation, Designing using Auto CAD, Surveying using Level, Total station, & GPS, and my focus on getting a job done well and on time, have resulted in all projects being completed successfully and with very positive feedback from managers, ministry engineers and clients. I have thorough knowledge of the process of construction in sewerage and ground engineering projects also excellent interpersonal and communication skills. My organizational and multi-tasking abilities are advanced.

Please let me know if you would like more information about my projects. I look forward to discussing my suitability for this role in person.

Yours sincerely

[RAJESH VENUGOPAL]
